

Enrich your testing program with the OraQuick® In-Home HIV Test

Increase access to testing:

- ✓ **Complement your community outreach**
OraQuick In-Home HIV Test is another testing option in high-risk social networks.
- ✓ **Enhance partner testing**
Encourage newly identified positives to give the OraQuick In-Home HIV Test to their partner(s).
- ✓ **Reach the refusals**
Provide access to individuals who elect not to be tested in a traditional setting.

Linkage to Care:

- ✓ **24/7 Consumer Support System**
Your preferred organization can be added to the referral database utilized by our support center.
- ✓ **Literature Customization**
Customizable education materials are available for use with the OraQuick In-Home HIV Test linking back to your organization.

know it.™

The more people who know their status... the more people are linked to care.

The same test you have trusted for years... now for use in-home

OraQuick® - the first in-home HIV test

- ✓ An oral swab that detects antibodies to HIV
- ✓ Results are available in 20 minutes
- ✓ The only at-home oral HIV test approved by the FDA

24/7 Live Support Line - 866-436-6527

- ✓ Specialized, highly trained support through the OraQuick Support Center
- ✓ Bi-lingual (English/Spanish) representatives can provide information on HIV and the OraQuick In-Home HIV Test, help interpret results and provide referrals to follow-up support and care

The more people who know their status...
the more people are linked to care.
